

Project Management System using MS Access and Excel

Contact Name: Hamid Feiz, P.E.
Company: Allender Butzke Engineers Inc.
Location: Urbandale, Iowa, USA
Company Website: www.abengineers.com

Customer Testimonial:

“I enjoyed working with Paltech Solutions and the final product did exactly what we asked for!”

Hamid Feiz

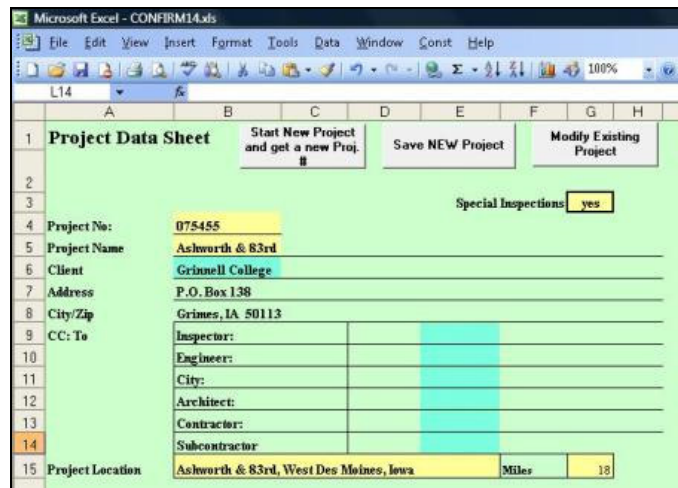

Customer Requirement:

Modification of the Project Management System to achieve the following functionality:

- When the macro is run on a new project, automatically get the project number from the database
- When data is entered in cells E9 to E19 on the Excel file, automatically update the Access database
- When a specific project is selected, automatically retrieve its data from the Access database

Our Solution:

- The Project Management System was modified to meet all customer requirements
