Clients have benefited from our services throughout North America

“...In working with the Paltech analysts, we found them to be courteous, professional, responsive and thorough in helping us define our requirements and deliver a product to meet the user needs.”  
Carmella Vanzant, The Kroger Co.

The Kroger Co, the second largest grocery retailer in the US, needed assistance with its strategic planning database that would be shared between various divisions. Apart from having well structured data tables, Kroger needed to implement Allocation, Capital, and Project summary reports.

We are your PAL  
Always providing the most effective solutions to clients.

PepsiCo, a world leader in convenient foods and beverages, needed a system to track employee’s competency levels and their progress each year. Paltech Solutions is currently working with PepsiCo to develop a wizard type application that walks the employee through the process step-by-step.

“...Paltech Solutions programming effort, customer and product support was excellent...We plan to use Paltech this year for other projects. Highly recommended!”  
Thomas Halatyn, PAC-COMM

Paltech Solutions is working with ERA, a Vancouver based carbon offsetting company, to develop an Information System for Inventory Management, Client Relationship Management, and Executive Decision Support. The system includes reports and a dashboard for monitoring company Key Performance Indicators.
